SUMMARY

I am a diligent and fast-learning fresh graduate with relevant experience in the Internet of Things and artificial intelligence. I am good at Android APP development, Micro Controller, and Computer Version. I am good at Android APP development, Micro Controller, and Computer Version. Academic Excellence: 3-time Dean's List (Rank 1/50 in Fall 2018)

PROJECTS

Open HCI Workshop 大學專題

Technical Lecturer

Android Nodejs Express Flask PyTorch

- Designed and instructed an integrated IoT curriculum, covering technical theories and practical sensor implementation.
- Facilitated hands-on sessions for 50+ participants on hardware-software prototyping.

Open HCI Workshop

Technical Lecturer

- Designed and instructed an integrated IoT curriculum, covering technical theories and practical sensor implementation.
- Facilitated hands-on sessions for 50+ participants on hardware-software prototyping.

EXPERIENCE

Open HCI Workshop | Technical Lecturer ***(7 Days) July2024***

at National Taiwan University

- Designed and instructed an integrated IoT curriculum, covering technical theories and practical sensor implementation.
- Facilitated hands-on sessions for 50+ participants on hardware-software prototyping.

TAI CHI Conference | First Author & Presenter ***Aug. 2023***

at National Taiwan University (Taiwan Computer-Human Interface)

- **Paper:** "FlipWatch: Developed an innovative text entry system using vibration feedback and wrist gestures on smartwatches."
- Awarded **"Best Technology Award"** at Open HCI 2023 for exceptional technical execution and innovation.

NSSSE Conference | Second Author & Presenter ***June 2020***

at National Chung Hsing University (National Symposium on System Science and Engineering)

- **Paper:** "Building Website Micro-Server with Node.js Using Raspberry Pi"
- Implemented a lightweight server architecture to optimize resource-constrained environment performance.

PC Conference | Second Author & Presenter ***Nev. 2019***

at National Kaohsiung University of Science and Technology (Photonics and Communications)

- **Paper:** "Build a simple web server: using LinkIt7697"
- Implemented a lightweight server architecture to optimize resource-constrained environment performance.

Shih-Yin Chen

Software Engineer | CSIE Master

EDUCATION

M.S. in Computer Science and Information Engineering ***Aug. 2021 - July 2025***

National Chung Cheng University — Chiayi, Taiwan

- **Thesis:** "alphaVib: A New Approach for Text Message Reading via Vibration Feedback and Wrist Gesture Recognition based on Smartwatch"
- Major in Human-Computer Interaction (HCI), Internet of Things (IoT)

B.S. in Computer Science and Information Engineering ***Sept. 2017 - June 2021***

National Quemoy University — Kinmen, Taiwan

- **Academic Excellence:** 3.2/4.0 (Rank: 2/45, Top 4.8%)
- **Exchange Program:** China
  - Nanjing University | *Sept. 2019-Jan. 2020*
  - Exchange Student, Department of Computer Science and Technology

CERTIFICATIONS

- MTA: Security Fundamentals – Microsoft
- TQC Professional: E-Commerce – Computer Skills Foundation

ADDITIONAL INFORMATION

- Current research field is Human-Computer Interaction (HCI)
- **Supplemental Materials**

Please refer to the Appendix for supporting certificates and detailed project portfolios.
